

BREAKING DOWN THE "DEAL OF THE CENTURY"

WHAT IS THE DEAL OF THE CENTURY?

The deal of the century is a proposal by the Trump administration that seeks to consolidate the Zionist settler colonial project, entrench the apartheid system that Israel has enforced on the ground for years, and annex more land in the West Bank

WHAT DOES IT MEAN FOR PALESTINIANS?

The annexation of more than 42% of the West Bank, including the Jordan Valley, resulting in Palestinians ceding more than 87% of historic Palestine

Jerusalem would be the "unified capital of Israel," and Palestinians will continue to face ethnic cleansing measures throughout greater Jerusalem

Palestinians in the Gaza Strip would be fully disarmed and unable to defend their land and life against Israeli military occupation and siege

Palestinians would be forbidden from taking any action against Israel in the International Criminal Court

The Right of Return for over 5.5 million Palestinian refugees would be legally nullified in contravention to UN Resolution 194

The Palestinian political establishment would be required to halt all payments to Palestinian prisoners and the families of martyrs
